

EULAR Congress 2021 - Going Virtual - EULAR Village participation

Dear EULAR member societies,

We hope you had a good and healthy start into the year 2021. Amidst COVID-19's ongoing challenges and with the aim to protect everyone's health and safety, EULAR has come to a decision that the **EULAR 2021 Congress will take place virtually again.**

We will greatly miss seeing you in person, therefore would like to have your presence at the EULAR Virtual Congress 2021.

As in 2020, we would like to offer you an E-Presence profile page at EULAR 2021 Congress **Free-of-Charge**, for non-profit organisations. This E-Presence profile page will enable your organisation to be present at the Congress where visitors can also engage by leaving comments on your organisation's profile.

In addition to this offer, your organisation could opt to increase its engagement by sharing uploaded files with visitors which would provide more insight into your organisation, moderate more interactive comments and potential collaboration opportunities. This additional feature costs 300 EUR. For better envisioning, we have created some mock-ups and they will be provided to those societies who are interested in this additional feature.

Please indicate your interest by clicking on and filling up [this form](#) with your preference of E-Presence, with or without the additional feature, latest by 7 March 2021.

We are looking forward to welcoming you at EULAR 2021.

Kind regards,
Lea Ryhänen
